This Report was prepared by Community Places, September 2016.

Introduction

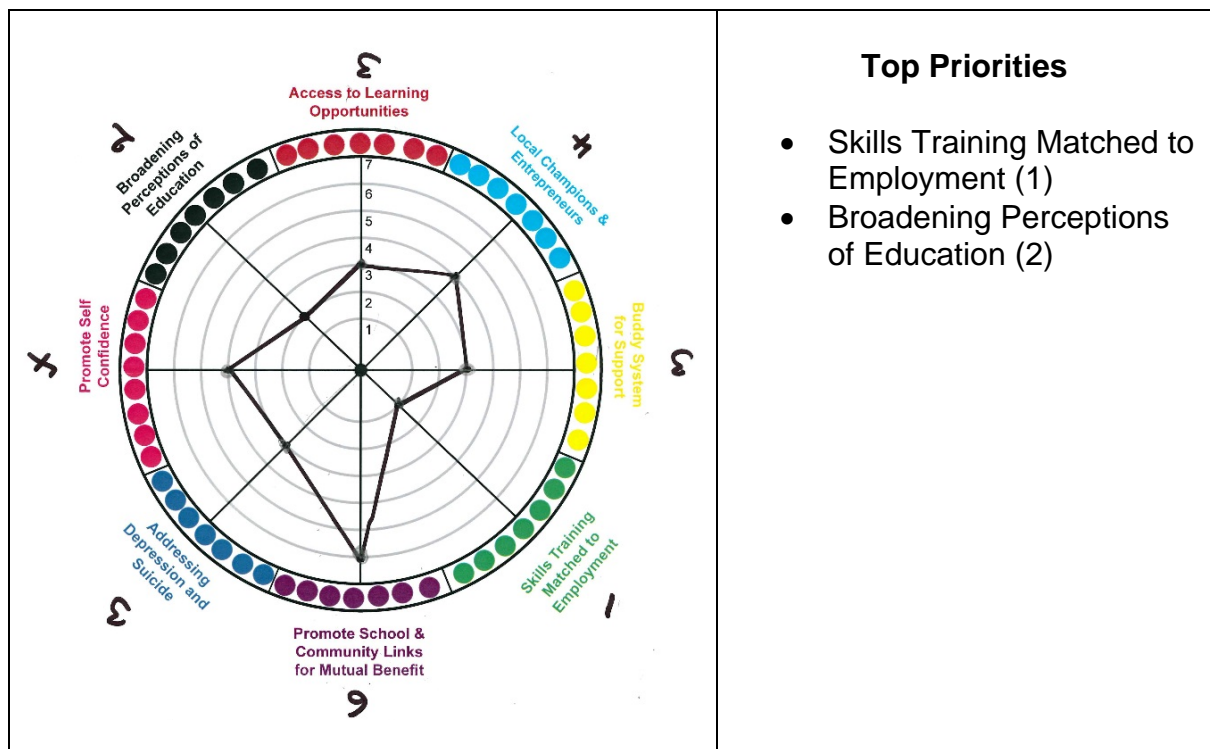

As part of the Community Planning is Here: Get Involved Project three Public Forums were held across the Mid and East Antrim Borough Council Area. The forums provided participants with an opportunity to: hear about Community Planning; find out about the progress of Community Planning in their area; explore Community Planning Priorities for the Council area through a Place Standard Exercise; and have their say on the issues which are important to them. The report provides a record of the tailored Place Standard exercise undertaken by participants. This approach enables participants to consider issues and rate those which they think should be prioritised. Issues are rated on a scale from **1 to 7**, where **1** means the issue should be tackled as a high priority and **7** where the issue is still important but of a lower priority.

- Success is not all about the high profile characters but can be local people who still have the ability to influence others by showing the success they have had.
- Local projects need to be supported to be their own local champions- not always financial support but promotion and recognition of groups/ individuals/ projects that are already happening.
- Tap into local people who have time to give (retired/ older) who have skills to share
- Innovate, be creative about the approaches.
- Richard Tee 'I feel good campaign' social enterprise- very successful.
